

## Phonological Awareness Series Disc 2: Syllabification

*Syllabification* provides activities that encourage children to understand about syllables in words.

It also aims to help them generate their own words with a specified number of syllables. It offers practitioners working with children a resource to supplement therapy and teaching objectives, while giving children the opportunity to develop their syllable skills with fun, easy to access on and off screen tasks.

### The programme includes:

- 100s of colour and black and white pictures for use in the classroom and therapy sessions.
- A bank of prepared worksheets for extra practice in key areas.
- An option to make your own worksheets to suit individuals or groups of children.
- On screen activities that can be adapted to meet individual needs.
- Support notes for teachers and parents.
- Reward certificates.
- Male or female voice option.
- Technical help available.

This disc provides assistance for classroom support staff and special educational needs staff. The flexibility of this disc allows for the preparation of Individual Education Plans.

The activities are designed to change with each visit so that the pupils can't simply remember the answers. All of the images have been drawn specifically for this resource and can be downloaded separately so that individual worksheets and games can be created to suit each individual.

**Teaching subject:** English, Foundation Stage

**Key Stage:** Foundation, Key Stage 1

**School Year:** Nursery, Reception, 1, 2

**ISBN:** 0-9546521-1-8
